

PAWAN KAVINDA

ASSOCIATE SOFTWARE ENGINEER

+94 76 707 2322 | pawankd909@gmail.com | Colombo, Sri Lanka

[Github](#) | [LinkedIn](#) | [Portfolio](#)

Software developer with a strong foundation in full-stack development. Proven ability to lead features independently, collaborate across teams, and deliver scalable, secure software solutions. Passionate about emerging technologies, AI integration, and working in high-paced, product-focused environments.

EXPERIENCE

Beta Launch | Associate Software Engineer

Jan 2025- July 2025 Colombo, Sri Lanka

- Led all feature development, security enhancements, and bug resolution for [Dialog Genie Loan Management Application](#) 100% by my-self after 2 weeks of project onboarding by engaging with mobile development team, testing and cyber security teams. (ReactJs, NestJs, MongoDB, Docker)
- Contributed for HACCP report feature in [Clean Control Application](#). (ReactJs, MongoDB, NestJs)
- Involved as front-end, back-end and mobile developer for the [Podi Business tax management application](#) from the scratch. (React native , ReactJS, NestJs, PostgreSQL)
- Handled the [Takso Application](#) with continuously engaging with the client daily alongside with other projects. (ReactJs with class components, ExpressJS, MySQL)
- Created comprehensive technical documentations for Takso Application and Dialog Genie Application.

Beta Launch | Intern Software Engineer

July 2024 – Dec 2025 Colombo, Sri Lanka

- Worked as a full-stack developer for Takso Application (Australian cultural activity planning web based platform).
- Collaborated with the client by myself in daily stand ups, backlog grooming and sprint planning meetings.
- Maintained Jira backlog, created release versions and release notes in Confluence.
- Designed logic diagrams using tools like Miro and created project documentations like user stories, feature flows.
